The Foreword

As the sturdy oak gives of its strength to the green leaves of springtime, as each brief day gives a new dawn, as each passing generation bequeaths its best to posterity; so our Church School places the life-staff of a Christian Education in our hands. The mandate is ours to take the sacred wisdom, and struggle on in the relay of life to a deeper faith in the power of the spirit, and a greater service to our fellow men.

It is the purpose of this book to catch a glimpse of that forward looking spirit of life as it marches onward.

ALBERT D. HELSER

The background of the page features a faint, decorative illustration. On the left, there is a large, leafy tree. On the right, a figure, possibly a personification of a spirit or a deity, is depicted standing and holding a long, curved staff or scepter that reaches towards the top of the page. The overall style is that of a classic, ornate book design.

The Dedication

To that Spirit of Youth

*which hears the high call and
answers without hesitation;*

*which, bold beyond its strength and
venturesome beyond its better judgment
swiftly undertakes whatever is determined
upon;*

*which shrinks at no cost, but freely
sacrifices the fairest offering in its power
to give;*

*which believes that valor is greater
than victory, and truth more abiding
than triumph;*

*which, spending its all in high
endeavor sees the best unrealized, but
admitting no defeat carries on the work
begun;*

*To that spirit, which is personified
in Albert D. Helser, we, the Junior Class,
dedicate this book.*

OFFICERS

FRANK BROWER, *President*
 RILEY JORDAN, *Vice President*
 HAZEL ROYER, *Secretary*
 THERON WEAVER, *Treasurer*

This year, for the first time in the history of Manchester College, there is being put forth a serious effort at organizing the student body for carrying on student activities, and for student government.

It is the task of the Student Council to formulate student opinion and announce college laws. It meets weekly for business and has charge of chapel once every month. Frank Brower has shown himself a very able President of the body, and under his leadership the Council has attempted to formulate student opinion on such subjects as effect the moral and social life of the College.

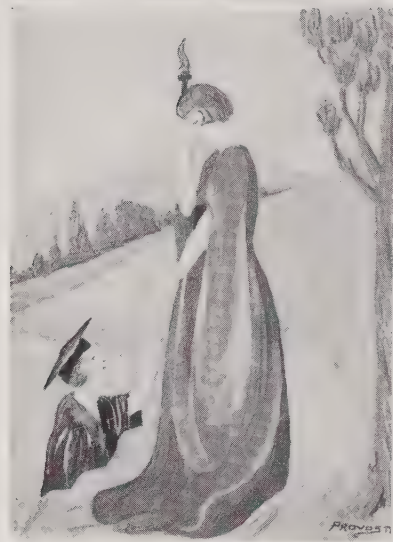

The student organization is a new experience for Manchester College. Its real testing will come when the newness has worn off. It is to be hoped that it may have sufficient support from the student body to win a permanent place in the college.

Jordan, Keller, D. Dickey, Brower (Pres.), Wolfe, H. Royer, H. Yoder

The Student Court

Most people will agree that the person who is not a good citizen while in college will not likely be such after school days are over. Acting on this assumption, the Student Court has honestly sought to interpret college laws enacted by the Student Council, and has likewise dealt with violations of these accepted college regulations. Its purpose has not been to hunt for offenders of college regulations, but to help those who have come under its jurisdiction to a better understanding of real citizenship. Since this is a new organization on our campus, and its members are inexperienced in this type of work, the Court has spent many hours in trying to make decisions which would be for the greatest good to the greatest number. We feel that its wisdom, justice, and firmness in dealing with students has won the respect of those who have most severely felt its power.

Athletic Board of Control

ROBERT STAUFFER, *Basketball Coach*

CARL BURT, *Football and Baseball Coach*

The board has been striving to place athletics in proper proportion to other activities at Manchester. Their endeavors have not been confined to one field, but instead have been divided among four sports, thus giving a chance for a greater number of students to participate. They have given us a good schedule in all four sports during the past year. Their success in keeping athletic work up to what it should be, and avoiding its ever-emphasis is noteworthy indeed.

OUR PEP ARTISTS

Edith and Bob

FOOTBALL

Manchester for the first time in her history had a football schedule and coach. Due to the fact that experienced players were few among the students, only four games were scheduled. The first game was played at Adrian, Michigan, October 10, with a score of 28-7 in favor of Adrian. Playing against an experienced team seemed to bewilder our players, and it was only in the last quarter that they played with a fighting spirit. The second game was played at Indiana Central, October 17, in a sea of mud. It was a game of errors and fumbles of which Central took advantage. The final score was 12-0 in favor of Indiana Central. The "Homecoming" game, October 31, was played here with Muncie Normal. Muncie outplayed us by making a harder fight, and went home carrying the heavy end of the score of 13-7. The last game scheduled was with Danville Normal, here on November 7. Due to continued rain, the game was cancelled, and Danville went home winner by forfeit.

Coach Burt, assisted by Prof. Cordier, made a creditable showing by taking inexperienced men and developing players who will make up a good team next year. Loren "Snow" Evans, outstanding player of this year, will be Captain of the 1926 squad.

EVANS

"Snow" was our outstanding player.
He will captain the 1926 squad.

LOGAN

"Jack" was an excellent ball carrier
on end runs.

BECHTOLD

A guard who showed excellent de-
velopment during the season.

KRANING

A half-back who received injuries in
the first game that confined him to the
bench for the remainder of the season.

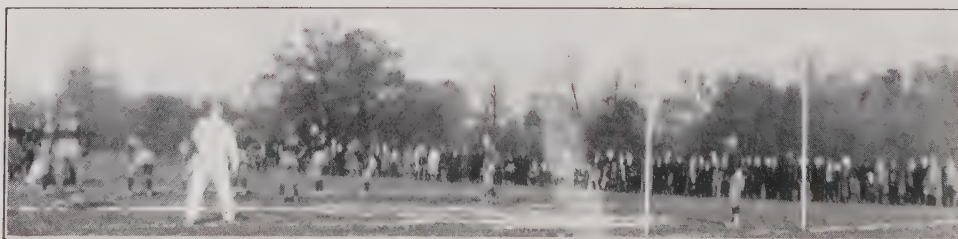

EARLY

"Cal" was an experienced end who
could break up plays as well as pull
down passes.

C. BYERLY

Carl was our quarter who never
lacked fight—a real general.

HOMECOMING GAME

HELSEER

Roe was our fullback who smashed the line. We lose him by graduation.

LONGENECKER

"Necker" was our best defensive tackle, always fighting to the end.

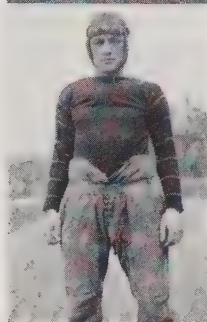

HEARNE

A real guard on both offensive and defensive.

BRICKER

A half-back who was good at interference as well as ball carrying.

KINDY

Started the season in the backfield, but soon found his place at guard.

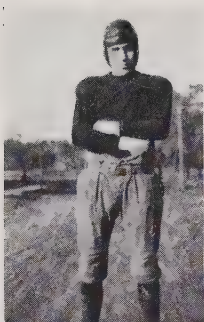

Le CLAIRE

"Tiny" was our center who naturally fitted his place well.

INDIANA CENTRAL GAME

MURRAY

A good quarter-back. Unfortunately injuries confined him to the bench part of the season.

K. EBY

A guard that could stop line smashes.

HILTY

A good defensive tackle whom we lose by graduation.

J. BYERLY

John was always dependable on the line.

WINGER

"Cal's" team mate at receiving passes.

COOK

Developed late in the season as an excellent end.

"HOLD THAT LINE"

BASKETBALL

Manchester has always had a good basketball team, but was never recognized as a strong team in the state until this year. We were unable to secure a strong schedule until the "Golden Boys" administered Butler's only defeat. Games with Franklin and Wabash were then secured.

The Franklin game was played during the Christmas holidays. At the end of the half the score was 12-22 in favor of Franklin. However, the downstaters started to stall too early, and Manchester taking advantage of this, started a rally which gave us the big end of the score of 37-39 at the close of the game.

In the Wabash game, the jinx of the thirteenth game seemed to prevail, as our boys were unable to find their usual form, and lost, with a score of 22-29.

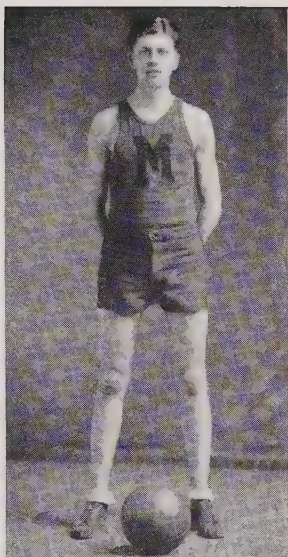

We have secured a stronger schedule for next year, and with the same squad back, Manchester will have one of the leading teams in the state.

MANCHESTER STATE CHAMPIONS

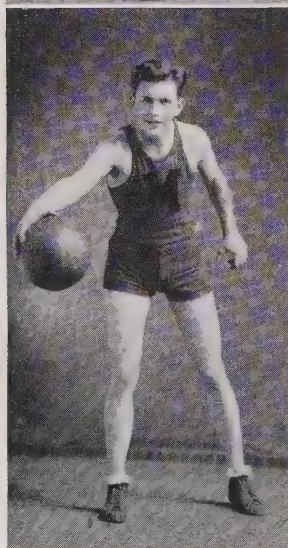

CAPTAIN WINE

The mainstay of the "Golden" squad, who fitted admirably into the back guard position.

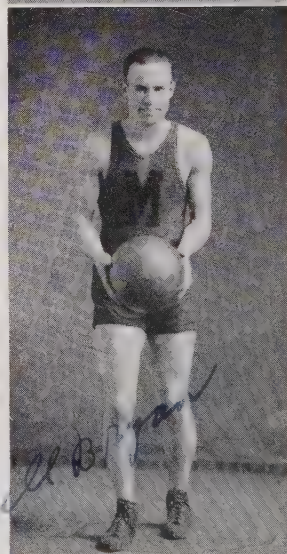

KRANING

High point man in the state. Familiar phrase of opposing teams, "Watch Kraning."

WINGER

A good mate for Kraning in the forward position.

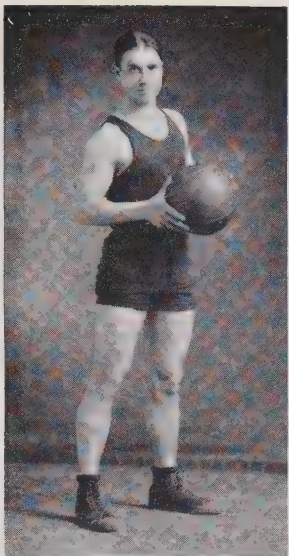

BRYAN

The midget of the team. His guarding was super-excellent.

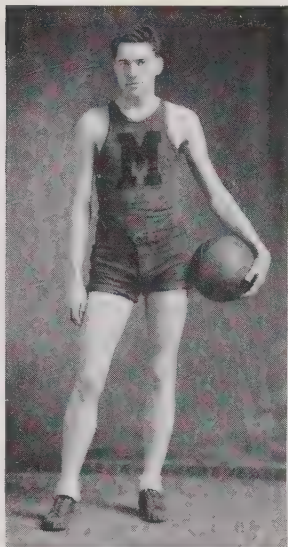

OFF TO THE CONCORDIA GAME

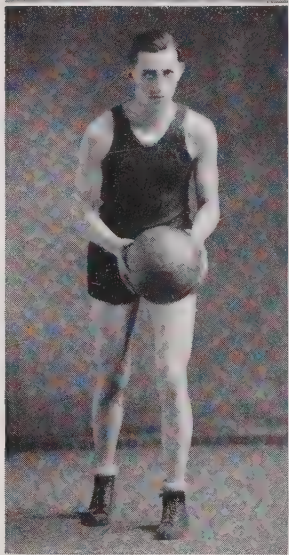

DEARDORFF

"Deary," a forward that could be depended upon.

McCANN

"Bushy" filled the tip-off position. His flashes of speed always resulted in a basket.

BAUMAN

An all around substitute, who will be heard of next year.

EVANS

An able athlete who knows basketball, and shows that he knows.

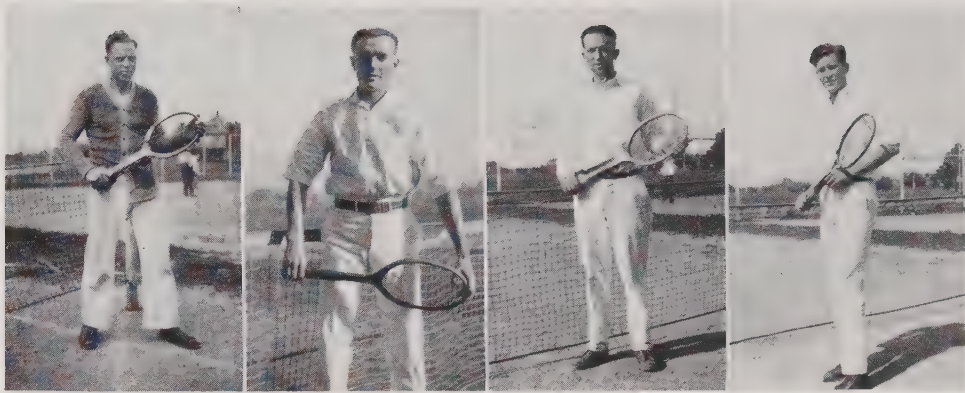

STARTING FOR INDIANAPOLIS

Spring Baseball

As a baseball schedule was not arranged until the season had begun, only four games were scheduled. The team had no coach due to the absence of Mr. Burt. There were two games each, with Concordia and Muncie. The first game was played here with Concordia on May 2. M. C. was outclassed and lost by a score of 12-7. The second was also played here, with Muncie. This was the only game won by the brave team, but the grand score of 19-5 balanced the losses. The third game was lost to Concordia on May 9, and the last to Muncie on May 16. The lack of coaching was evident, and the opponents were able to turn the tables heavily against us.

This spring, with Coach Burt at the helm, and several games scheduled, we are expecting to pile up victories for M. C. and make up for our losses last year.

Hendrix, R. Winger, Byerly, P. Winger

Tennis

The tennis schedule this year was a good one, and it was unfortunate for M. C. fans that all the games were away from our campus. The team, composed of Byerly, Hendrix, P. Winger, and R. Winger, went to Terre Haute for the first game, but lost with a score of 5-1. Then came a two-day trip, first to DePauw, where Manchester came to the top with a score of 4-2, and the following day duplicated this record by defeating Wabash with the same score. This was the outstanding trip of the season, and it showed the strength of the team.

The next venture was a three day trip to Muncie, Indianapolis and Terre Haute. At Muncie the boys showed their skill unequaled, and came out with flying colors, the score being 6-0. They met, at Indianapolis, the Y. M. C. A. team, which was composed of three members. This match ended with a tie score, 2-2. In the final lap of Terre Haute, the boys were not able to hold their stride, and lost 2-4. Terre Haute seemed to be a jinx of the season as our defeats were at their hands.

On May 27, Manchester entered the state meet at Muncie. In the doubles Byerly and R. Winger defeated Muncie but were then defeated, after a hard contest, by Purdue. In the first round of the singles Hendrix lost to Nisbit of DePauw, P. Winger defeated Noll of Indiana Central, and R. Winger defeated Thompson of DePauw. In the second round P. Winger defeated Nisbit of DePauw and R. Winger lost to Jones of Earlham. In the third round P. Winger lost to Williams of Terre Haute.

Pirates

Speedboys

Boys' Intramural Basket Ball

As basketball is the leading sport at Manchester, a good intramural tournament was possible. There were ten teams entered, each team playing two games with each other team. The standing was allotted on the percentage basis. As the season drew to a close the "Pirates" and the "Speedboys" were tied for first place. The final game was played as a preliminary to one of the varsity games. The "Pirates" came out on top, winning the cup and medals.

Boys' Indoor Base Ball

During the fall term the intramural activities were confined to indoor baseball. The final game in the tournament was played on Home Coming Day. The "Senators" won by a small margin. This activity provided recreation for a large number who were not participating in varsity athletics.

SENATORS

Lightweights

Ravens

Girls' Intramural Basket Ball

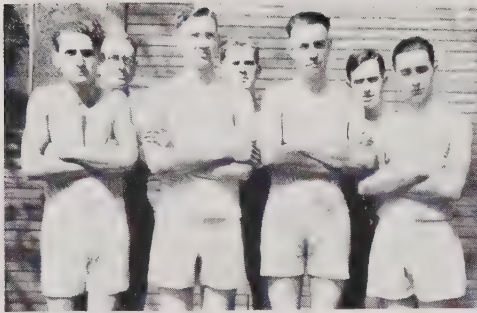

The intramural activities were not confined to the boys only. The girls also had an intramural tournament. The final game was between the "Light-Weights" and the "Ravens." The "Light-Weights," whose name misrepresented them, won by a comfortable margin.

Girls' Indoor Base Ball

This was another of the activities for the girls, which showed Coach Burt's policy of offering intramural athletics for all the students in school. The "Hot-Tamales" were the winners of this tournament, and they easily showed their superiority.

HOT-TAMALES

Vaniquers

All Americans

Holley Ball

This game was played only during the winter term. Several students who did not care for the more strenuous games participated in volley ball as an excellent means of securing the necessary exercise. A tournament climaxed the season during the later part of the winter term. This was another one of the methods Coach Burt provided for securing recreation for the entire student body.

Horse Shoe

The humble game of "barnyard golf" was inaugurated last spring and created considerable interest. It provided recreation for a large number who did not care to take up other sports. A tournament was arranged, and the finals were played on May Day. Virgil Kindy and Noble Miller were the winners, with Haney and Stuckman the runner-ups.

Negative Debate Team

The proposed "Child Labor Amendment" was so exposed in the light of our federal constitution by the Negative Debate Team that it is doubtful whether it will ever receive ratification by the states. Every Affirmative team that the Negative met in our state fell in confusion when the "Unlucky Thirteenth" Amendment was brought forward to expose the fact that there was no need for a constitutional amendment to protect our children from the ravages of Industrialism.

February 20, the Negative team met Heidelberg University's champion team on the home floor, and after a hard struggle placidly took the rear. Profiting by the sad experience, the Affirmative contenders of Purdue were vanquished on February 27. After they had mustered up enough courage to make an attack, the Affirmative team of Indiana State Normal made an unsuccessful stand against the Negative, and accepted defeat.

The judges for the first two debates were, Professor Brigrance of Wabash, and Professor Seifert of Butler respectively. The last debate was a three judge debate.

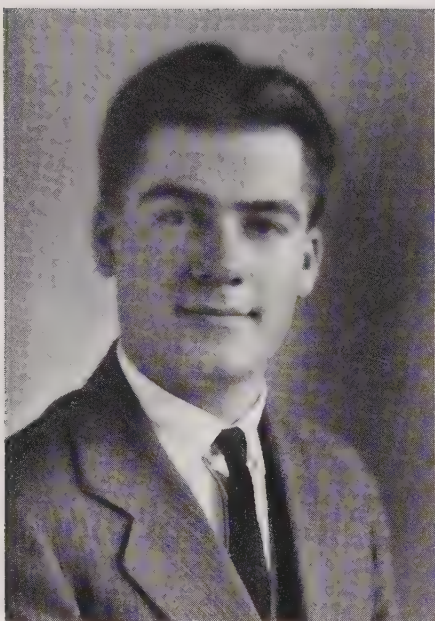

Landis, E. Royer, C. Byerly, D. Dickey (Capt.)

Affirmative Debate Team

The burden of proof for the question, "Resolved, that the Child Labor Amendment to the Constitution be ratified," was bravely and sincerely undertaken by the Affirmative Team. The widespread amount of child labor in the United States, the inability of the states to adequately remedy the evil, and the need of national legislation for a national problem, caused the affirmative to build a strong case in favor of ratification. In spite of the fact that there is much opposition to the amendment, they contended that the amendment was inherently sound and desirable, and that the opposition was based on false propaganda, spread by those who would use child labor in industry to a selfish advantage.

The Affirmative had two combats, in which they fought fiercely, spurred by Coach Conkling, whose time and ability were given unselfishly for both teams. On February 27 they journeyed to Butler College at Indianapolis and met defeat against the scholarly and experienced Butler team. The defeat was in reality a stimulus to harder effort and finer constructed argument, so that on March 5, on the home floor, they defeated the negative team from Indiana Central College.

Oratory

STATE ORATORICAL CONTEST

Manchester places a high premium on good oratory, and ever strives to make it a vital part of the school's activities. This year Manchester had the privilege of entertaining the State Oratorical Contest, and was represented by an able man with an able oration. Mr. Benjamin Stoner spent an untold number of hours perfecting his oration on "Nationalism." It proved to be a very beautiful and scholarly production. We are glad that Mr. Stoner has two more years in college in which to make a contribution to the forensic activities.

STATE PEACE CONTEST

For several years Manchester has sent an orator to the State Peace Contest. This year we were represented by Mr. Paul Kendall at the contest which was held at Purdue University. Mr. Kendall's oration was loaded with logic, and was made up of an unusually fine choice of words and phrases. The title of his oration was "When War Shall Cease." It was a production worthy of Mr. Kendall's presentation, and was a credit to the college which he represented.

The College Orchestra

An orchestra is a wonderful world of tone and harmony, with its blendings, its shades of power, of color, and of expression. The more true the expression and interpretation, the more perfect and harmonious is this world of tone.

Every year of organization brings an added facility of expression, interpretation, and execution. This year's work displays a marked superiority over that of other years.

Professor Lloyd M. Hoff is conductor. Under his increasingly efficient guidance this organization shows great possibilities of high attainments as evinced by the "First Annual Program" given March 2, 1926.

Left to right—M. Royer, Troyer, Findley, Heeter, P. Steele, Anglemeyer, Berkebile, E. Royer, Prof. Dilling, Harbaugh, N. Kindy, Shockley, Couser, Kraning, Brumbaugh, Rupel, Boyer. Pianist Brown.

The Men's Glee Club

The various types of music each make their separate appeal to the different classes of people throughout the world. There is something in good music which, beyond being entertaining, reaches deep into the inner self affecting those emotions which have a bearing upon character and personality.

The Men's Glee Club of Manchester College is one of a number of permanent organizations connected with the school. Business is brought before the club by its President, Ernest Boyer. It has a constitution and regulations. Last year, on its various trips, the Club traveled approximately fifteen hundred miles, singing to a large number of churches and schools in Indiana, Ohio and Michigan. This year a ten day tour is planned, aiming to give messages in song which are both entertaining and inspirational. Professor Roy Dilling is the Director.

Left to right—Bowman, Fisher, Jackson, Young, Kintner, Hostetler, Overholser, Moomaw, Albright, Cripe, Stouder, Cocanower, Lugenbill, Blough, E. Gump, Tony, F. Reed

The Girls' Glee Club

*"There is a charm, a power, that sways the breast,
Bids every passion revel or be still,
Inspires with rage, or all our cares dissolves,
Can soothe distraction, and almost despair."*

The purpose of the Girls' Glee Club is to give messages of love and cheer through the spirit of song. During the school year programs are given in various churches and schools. The trips taken are enjoyed by all, and the kind reception shown in the different homes is greatly appreciated. The Glee Club is one of the connecting links between the College and the homes of its students.

At six o'clock every Tuesday and Thursday evening, under the able direction of Professor Dilling, the girls meet for practices. Much interest is being manifested, and this Club has become known on the campus for her "cheery countenance."

The Choral Society

In order to create an interest among the student body and community for the highest and best type of music, and to promote an appreciation of the same, the Choral Society was organized. It consists of about one hundred and twenty-five members, and among them, through the medium of song, a spirit of cooperation and the ability to work and sing with the group for the getting of the best results, was developed.

Professor Boyer, the able director, who through his untiring efforts and great enthusiasm to make the Society a success, planned three programs for the year. Just before Christmas a cantata "The Coming of The King," very rich and beautiful in music and dramatization, began successfully the season for public programs from the Choral Society. On March 26, the Society gave a program consisting of Old English and German songs, all of the best grade. These were rendered in a way that showed the good work of the Society.

Two cantatas, "Pan" and "Lochinvar," marked the close of the year's programs. These were very pretty indeed, and were given with much pleasure by the members of the Society.

Brown, Findley, Heeter, Boyer

The College Male Quartette

*"To the Master of all things good and true,
Our praises e'er belong,
For the gift that's old but always new—
The gift of song."*

The College Male Quartette was organized at the beginning of this school year. They began work immediately, and undoubtedly the success they have met with is due to their persistent efforts. These young men have appeared on several programs, and the music which they cast abroad has been responded to by appreciative audiences.

“M” Association

President—LLOYD M. HOFF

The “M” Association is a purely honorary organization on the campus, and is made up of Alumni and students who have distinguished themselves in either intercollegiate athletics or forensics while in college, and have been rewarded by being granted a varsity “M”, which automatically makes them a member of the association. Students interested in athletics or forensics naturally desire to achieve efficiency, and find in the “M” Association an added incentive to their endeavors.

Not only do students aspire to become a member of the association, but the association itself is fostering certain projects which makes the organization a beneficial factor in the school.

Dallas Dickey Paul Garrett Kermit Eby

Lyceum Course Committee

From time to time throughout the school year various lecturers, entertainers, and musicians are brought to the campus. These represent some of the best talent in America in their respective fields. Impressions are received from these sources which stay in the mind of the student throughout his life. Men and women like Dr. Grenfel, Ida Tarbell, and S. Parkes Cadman will be remembered by everyone as leaders of thought in America.

The entertainment features of the year were equally as good. The Patton Brothers Trio, the Cleveland Symphonic Quartette, and Thomas Payne Whitney, reader, represented the very best. The next year's lecture course will be excellently balanced and varied, with men and entertainers of note.

Every well organized and efficiently managed school has its school paper. The rule holds true in regard to Manchester, and M. C. is proud of her Oak Leaves. The paper is put out by the journalism class, and there is nothing to indicate the narrowness of a small group. Instead, the paper represents the true ideals and policy of the whole school. The paper has a conservative policy, and only articles which show evidence of high idealism are published. The editor is chosen from and by the student body, from a list of names submitted by the Student Council. The system of election only proves that the paper is a fair and reasonable "vox populi."

The paper is very newsy and readable, and alumni and former students are constantly giving voice to the opinion that homes of Manchester graduates and students are complete, only, if a copy of Oak Leaves is always in sight. As long as Oak Leaves is in existence there will be a diffusion of that standard of truth and loyalty which is characteristic of Manchester College.

Dramatics

The dramatic art of a school is always of great interest to her student body and friends.

Each year Manchester College has entertained and upheld the highest ideals and standards of humanity through her dramatic department. The great influence of dramatic productions can never fully be realized, but our lives are somehow touched by the humor and pathos presented, and we are inspired to ever keep pushing forward toward the goal of our dreams.

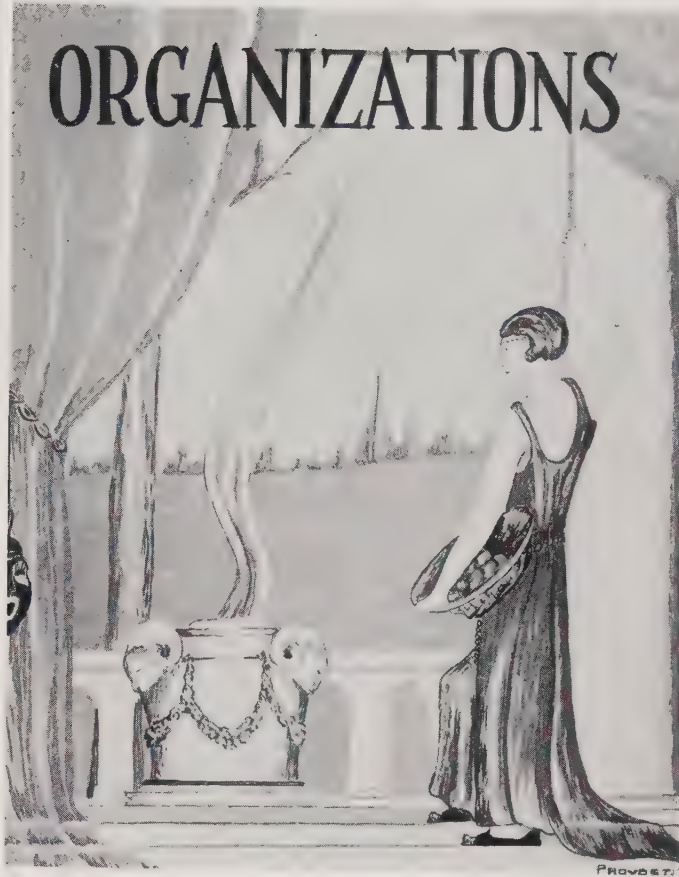

The class of 1925 awakened within the hearts of everyone the realization of the unconscious influence of our lives on others, through the presentation of the play "The Passing of the Third Floor Back."

As a fitting close of three years' work in the Expression Department, Miss Lois Forney, Miss Mary Gilbert and Miss Gertrude Book each gave an interpretative Reading Recital of the following books respectively, "Red Pepper Burns," by Grace Richmond; "The Following of the Star," by Barclay, and "A Singular Life," by Elizabeth Stuart Phelps.

During commencement week of 1925, the Expression Department entertained a large and appreciative audience through the presentation of three short plays, namely: "Overtones," "Spreading the News," and the Greek play "Pygmalion."

The Senior Class of this year admirably presented the Old English Classic, "The Rivals," by Sheridan, a comedy of the highest type.

The purpose of the Young Women's Christian Association is to help the young women on this campus to live the Jesus way of life; to present a real challenge for Christian living and citizenship; to maintain high social and moral standards; and to encourage personal spiritual growth.

At the "retreat" in the early fall the Cabinet formulated the policy and made plans of action for the entire year. This was very beneficial in increasing the efficiency and strength of its influence.

The Big Sister Movement was carried out very successfully in aiding the new girls to become adjusted to their new environments. Y. W. has also been influential in securing noted speakers for the benefit of the entire student body.

The purpose of the Y. M. C. A. embodies four ideals. It desires to lead students to faith in God through Jesus Christ; to lead them into membership and service in the Christian Church; to promote their growth in Christian faith and character; to devote themselves to making the will of Christ effective in human society, and to extending the Kingdom of God throughout the world.

The organization is busy in practical work on the campus. It tries to help new students in getting acquainted with others and with the campus life. It is active in the organization of prayer groups, discussion groups, and deputation teams. Its deputation work this year is largely in the interest of peace. Perhaps the work most helpful to the students was that of bringing to the campus such men as "Dad" Elliott and Frederick Libby.

FACULTY ADVISER PROF. SADIE WAMPLER

Philamathean Literary Society endeavors to train her members in all forms of literary activities. She aims to foster and develop special talents of each member.

Philamathean has maintained a high standard of programs, helpful as well as interesting. We are sure that the work done by 'Matheans this year has given them help and training which will aid them in the future.

May all Philamathean sisters always endeavor to carry out the true meaning of "Philamathean" and not only learn her motto, "Give Something, Receive Something," but actually live it and be the best advertisement for her that can be given.

FACULTY ADVISER PROF. BERTHA LEAMAN

It is the aim of the Philaethean Literary Society to produce workers trained to a fuller appreciation of the finer, deeper, and more beautiful things of life. To this end her members are given every opportunity to develop the expressional side of their natures. That above all which makes our college life pleasant, is the dream which we as college women cherish, of sharing largely in the future work of the world.

The creation of an inspirational home by decorating and renovating the old hall, and the successful maintenance of a high standard of literary activities are of outstanding significance in Philaethean attainments.

PROF. ANDREW W. CORDIER

The Philorhetorician Literary Society has endeavored this year, as in previous years, to live its motto. Madeline S. Bridges has expressed it thus:

*" . . . give to the world the best you have,
And the best will come back to you."*

Experience has proved that this holds true in many phases of life, and a literary society is no exception. The new members have caught the spirit in an admirable way and the result has been harmonious progress. The programs which have been given, the interest which has been manifested, the regular attendance of the large group of members, and the healthy fraternal spirit which exists are marks indicative of a flourishing organization.

FACULTY ADVISER PROF. J. E. DOTTERER

To be called "The Maker of Men," is the ambition which Philophronia tries to attain each year.

Each member of the society is given a chance during the year's activities to develop himself in the art of self-expression in the field where his interest lies. By taking an active part in the society, each member strives for a growing strength of character in order to prove worthy of their motto "Strength Unified Stronger."

During each year of growth Philophronia loses faithful and loyal members, but each year, too, she admits those who bring fresh power and enthusiasm, and want to be counted with the "seekers of wisdom."

Though "Men may come and men may go," the spirit of Philophronia lives on forever.

PRESIDENTS

GALEN R. MILLER

MILLARD ROYER

After a little more than a year of existence, we find the Science Club a permanent organization on the campus. Its purpose is to promote a new and a deeper interest in the various fields of Science. The membership of the club consists of individuals who are vitally interested in the promotion of the physical sciences, and who also feel that the future success of the human race depends to a large extent upon the development of these sciences. It is also the purpose of the club to give each member an opportunity to express himself in his particular field of interest.

Throughout the year the club has enjoyed some very helpful and interesting lectures from Dr. Holl and Professors Kintner and Dotterer.

Social Science Club

RAY PETRY, *President*

As the name implies, the club is a group of students who are cooperating in the attempt to solve the social problems of the modern age. It has become an indispensable part of the college activities, and has many times shown its usefulness.

The programs are devoted to ardent discussions on current events, research work, reports, special papers, and informal talks on social conditions. The programs have less entertainment and more scholarly training.

The club has an enrollment of nineteen members, each having met the required amount of History or Social study.

The purpose of the organization is to foster and maintain conduct in harmony with the spirit and ideals of the institution.

For the one who is looking for an exhibition of pure and unadulterated life there is no better place to find it than the dormitory. Truly one's education is not complete unless he has a taste of the course in "Dormitory Life."

The Men's Student Government ingrains in the lives of the students the principles and the rules of a democratic government which are helpful to proper environment and essential to proper college discipline.

It is only natural and right that man should strive to become self-governing, for he makes his own moral choices.

The Women's Student Government has, in the past, made an invaluable contribution in co-operating with the management to uphold the ideals of the school, among the girls of the Dormitory, and this year has not proved an exception.

The official members, who are given their offices by the girls themselves, are representatives from each of the four college classes.

The laws necessary for the realization of the aim of the organization are established and enforced by the students, and an atmosphere conducive to harmony and efficient work has been the result.

One of the many activities on the Manchester College Campus is the Student Volunteers. This group is composed of students who are preparing themselves for active Christian work, either in the homeland or abroad. During the period of their stay at Manchester they meet weekly to study problems and discuss various phases of the work that awaits them.

The group at Manchester is made up of three divisions: the Foreign Volunteers, the Home Volunteers, and affiliated with these two, the Student Ministerial Association. Meetings are held each Monday evening. On alternating weeks the three divisions meet as one, and on the intervening week the sections meet separately.

During the school year members of the group go out in teams to carry missionary information and enthusiasm into the churches of Manchester and surrounding territory. These activities help to keep the constituency of the college in touch with the work done here, and at the same time helps the students to develop their spiritual life and talents.

Ministerial Association

OFFICERS

Theron Weaver, *President*

Clarence Shockley, *Secretary and Treasurer*

Russell Sherman, *Chairman of Program Committee*

The ministry of Christ's Gospel is the highest calling of man. Manchester College is proud to have in her student body some young men who have responded to this call, and are preparing themselves for it. These students make up the local organization, which has for its purpose the fostering of the educational needs of young ministers, and the supplying of active workers for some nearby fields.

The Association has not had such an extensive program of its own this year, as previously, since it has been merged with the Volunteer Group and is functioning with it. It is still busy in the field, however, and several churches are enjoying ministerial and pastoral help from its members.

The College Sunday School, led by an able corps of teachers and officers, is striving earnestly to promote the great cause of Christian education. Believing that the greatest inspiration and help can come from direct study of the Bible itself, the Bible is used in the classes. Thus the student has a continuous and unbroken teaching from the books of the Bible chosen for study.

The Sunday School is doing a very definite missionary work in the support of Sister Laura Shock on the mission field in China. The students are not only given the opportunity to develop a missionary spirit by contributing to missions through the regular Sunday offering, but also through letters which are being written to Miss Shock every two weeks. The West End Chapel also is supported in part by the College Sunday School.

The Sunday School is affiliated with the county, district, and State organizations; support being given in a financial way as well as in the sending of representatives to the various conventions held.

The Mission Chapel

OFFICERS

CLARENCE SHOCKLEY, *Pastor*
VIRGIL KINDY, *Sunday School Superintendent*
VELMA CLANNIN, *Chorister*

The work at the West End Mission this year has been under the direction of Clarence Shockley as pastor, and Virgil Kindy as Superintendent of the Sunday School. The Mission has filled a very definite need in its section of the town. There has been a great deal of practical work done in administering to the sick, of whom there has been a large number. Many have been given an opportunity to attend regular services, which they would otherwise not have had.

The work is fostered by the college, and students have spent much of their time to make the project a success. The greatest credit should be given to the two leaders who have so willingly given themselves to the work, and who have in turn received much help from the experience. Much is to be hoped for in this field of work in the future.

The College Women's Club

During the past year, this organization, whose active membership includes the lady teachers, and the wives of the men of the faculty, held its joint and sectional meetings each month, as usual.

Mrs. M. M. Sherrick, President of the club, conducted the work of the year in a very creditable manner. Some of the outstanding features of the joint meetings were, a trip over the "Frances Slocum Trail," talks by Miss Vogt, who spent several years in Ceylon, on "Education in Ceylon," talks by R. H. Miller on his European travels, and talks by Mrs. Elizabeth Daugherty, the State Representative.

The social side was in evidence at the teas given to the lady students, the Lady Guest Party, when each member invited a lady guest, and the annual C. W. C. Banquet, when the men of the faculty and others were guests. At the latter function the club was fortunate to have Dr. D. W. Kurtz present, who spoke on "The Philosophy of Art."

These meetings, where teachers, homemakers, and students mingle, create a bond of closer friendship, understanding and purpose.

Students' Wives Club

OFFICERS

MRS. EMMERT FLORY, *President*
MRS. RUSSELL SHERMAN, *Vice President*
MRS. LLOYD MARKLEY, *Secretary-Treasurer*
MRS. LEIGH FREED, *Assistant Sec'y-Treas.*

There were Societies for the girl students and a Club for the College Women, but there was no place for the wives of the students in the social life of M. C. In the fall of 1924 the wives met and organized a club of their own. With Mrs. Robert Winger as first president, the club was well founded and a movement started which has been continued to the present time.

The membership has steadily grown, and this year there were thirty-one who enjoyed this social activity. Each month meetings were held in the various homes where a committee of four furnished the entertainment.

With this splendid foundation, the club should become a permanent organization of the school, and furnish interesting and individual entertainment for the wives of the students of Manchester College.

The Summer Faculty

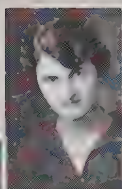

It is in summer when all the earth is singing with the joy of developing life, that students and faculty alike, are permeated with the spirit of growth, work, each one in his own sphere, not for reward but for the joy of learning. Then it is that we learn to know the faculty, not as professors, but as men and women, as friends and comrades.

We regret that so many of the 1925 faculty are no longer with us. Some have gone to other fields of service and others are away, we trust only temporarily.

The delicate charm of the Manchester College Campus is particularly pleasant and invigorating in Summer. The sturdy oaks symbolical of the rugged Christian character of the faculty, seem to spread their leafy arms out to caress and shield it from the harm and ugly discords of life, so that the student may drink celestial ambrosia undisturbed.

If it is not sacrilege, the Summer Aurora Staff hopes for at least a fleeting shadow of this atmosphere to linger in these pages.

The College Sunday School

OFFICERS

C. O. MILLER, *Superintendent*
MARY BLOCKER, *Assistant Superintendent*
BLANCHE FRUTH, *Secretary*
ELMER ROYER, *Chorister*
DESSIE HELSER, *Pianist*

The College Sunday School was quite an asset to the school, under the leadership of C. O. Miller as Superintendent. There were four classes, the membership of which was very good considering the great number of summer students who went home over Sundays. The good attendance may be attributed to the excellent work of the teachers.

The Women's Summer Student Government

The government of the women during the summer term is a simple task, facilitated by the fine spirit of democracy which permeates the hearts of all school teachers. Few girls live in the dormitory during the summer session and much of their time is spent out of doors and in classes. Miss Etoile Sargent was the capable head of the group which helped to instill the ideals of Manchester College into women students.

The Men's Summer Student Government

In view of the fact that most of the summer students are school teachers and of similar professions, the work of the Men's Student Government is particularly light. Their functioning is not a great show of authority, but as some form of government is necessary they form the executive body, which is about the extent of the organization. There is little necessity for discipline for excellent cooperation is always evident among the summer students.

The Young Women's Christian Association was very ably guided by Miss Erma Hissong during the summer term. Many fine programs were presented, consisting of talks by members of the faculty, which were inspirational as well as educational. The musical program rendered by Mr. Burton Conkling was of special interest. Among other activities, the Y. W. conducted the sale of refreshments at the Chautauqua tent.

The purpose of the organization was to present to the student the highest ideals and a challenge of "service" to the world.

The Y. M. has a distinct place on our campus in the summer as well as in the winter. During the past summer the men owe much to Mr. Riley Jordan for the success of the Y. M. and the spirit of friendliness and helpfulness on the campus. This association is becoming more and more a live organization, and fills a need in the lives of the men in our college that no other organization has been able to meet.

Emersonian Literary Society

OFFICERS

THEODORE MILLER, *President*
GRACE LAUDIG, *Secretary-Treasurer*
PEARL BENNETT, *Faculty Adviser*

In spite of the fact that school work was very complicated during the summer of 1925, the Emersonian Literary Society was a very active organization. Her weekly programs furnished literary education, social development, self-expression and entertainment for her members.

The high ideals of Emersonia cause us to value fellowship, and instruct us in understanding, sympathizing with, and appreciating our fellow students. Our obligation to the society calls forth our extreme resourcefulness and gives practice in clear thinking and forceful speaking. Our faculty adviser, Miss Bennett, was exceedingly helpful and capable of filling her position ably.

The summer will be remembered by its interesting programs, and the jolly picnic which was enjoyed by all loyal Emersonians.

Hesperian Literary Society

OFFICERS

FRANK BROWER, *President*
HATTIE JOSEPH, *Vice President*
BLANCHE FRUTH, *Secretary*
J. ROY BLOUGH, *Faculty Adviser*

College students, whether they spend their summers or their winters in school, find it necessary to provide some organization which will give them opportunity for wholesome social and literary expression. To those who have a sincere desire for this type of work, Hesperia provides an almost unlimited field. In her activities one receives rewards commensurate with the efforts made.

Hesperia is justly proud of the ever increasing group of loyal members who return to boost their society each summer.

The Society owes much to the able help of her faculty adviser, Prof. J. Roy Blough.

Summer Base Ball

A summer baseball team was organized with Cleo Wysong as coach. The team played with Winona College. The first game was played on Manchester's field, and resulted in a score of 4-0 in favor of M. C. The second game, played on Winona's field, resulted in a 5-7 defeat for M. C.

At the end of the first six weeks of the summer term the team disbanded on account of lack of players. The battery for the summer team was Zieg, Slabaugh and Wysong.

The West End Sunday School

OFFICERS

FRANK BROWER, *Pastor*
CLARA HARPER, *Superintendent*
LOIS MOOMAW, *Chorister*

The teachers and workers at the West End Mission Chapel were practically all college students. The mission is quite desirable in that part of the community, and is accomplishing great things, as well as affording an excellent opportunity for practical work as desired by some of the students. Benefits and good will are derived by both the people of the West Side and the students who devote themselves so heartily to this project.

The Alumni Association

As colleges are measured Manchester is yet in its teens. Though among the younger institutions of the state, it is one of the most virile. Unknown and unheralded fifteen years ago, it today occupies an enviable position in the higher educational program of Northern Indiana, and among the constituency of the Church of the Brethren in the Middle West. The alumni now number in the thousands and are occupying positions of trust and honor in many sections of the world. Their influence is international.

The Alumni, not unmindful of the debt they owe, are always interested in the well being of their Alma Mater. Many are the anxious eyes and ears directed Manchesterward. The Chimes and the Winger fund were fostered by that body. Just now they are entertaining a program looking forward to a new gymnasium-auditorium. It is their desire that funds may be obtained, so that in the near future a building may grace the campus which will be sufficient to house the growing physical program for years to come.

All hail to the Greater Manchester College!

(Alumni editor's note—Owing to the growth of the Alumni Association, we are unable to give space to the entire list of graduates. In this issue of the Aurora, we are featuring A.B. graduates of Manchester College of the years 1900-14 inclusive. It is with pleasure that we feature the following pages of snap-shots along with a few words of their appreciation for their Alma Mater.)

Tannreuther; Kintner; Stine—Cottrell

G. W. TANNREUTHER, Columbia, Missouri

A. B. 1900. Professor of Zoology at Missouri University

"If I were required to repeat the four years of undergraduate college work you would find me back at M. C., for the instruction received from my old M. C. teachers has stood the test for a quarter of a century."

EDWARD KINTNER, North Manchester, Indiana

A. B. 1912. Professor of Biological Science at Manchester College

"I am grateful for what Manchester College has meant to me in her loyalty to the Church that founded and fosters her, and in her recognition of the primary importance of religious training."

O. W. STINE, Goshen, Indiana

A. B. 1914. Auditor of "Rock Run Mills" of Goshen, Indiana

"We owe much to Manchester College for the training, ideals and inspiration received there."

D. O. COTTRELL, Rocky Ford, Colorado

A. B. 1903. Taught in Blue Ridge College for three years, and after some years in business went to Colorado as a pastor.

Schwalm Morris Beery

V. F. SCHWALM, North Manchester, Indiana

A. B. 1913. Dean of Manchester College

"My appreciation of Manchester College is perhaps best evidenced by my never having left her since my graduation. My hope now is to serve humbly, and to help make her in quality and character what her many admiring friends would have her be."

C. S. MORRIS, McPherson, Kansas

A. B. 1913. Professor of Mathematics and Physics at McPherson College

"I came to Manchester College at a time when my life was most plastic and my ideals and ambitions were forming. The helpful influence and the wise direction that were afforded me both in the classroom and on the campus have become a vital part of my life, and I shall never cease to be grateful."

GENO E. BEERY, Lincoln, Nebraska

A. B. 1913. Physician at Green Gables Sanatorium

"I am one of the three of 1913. I am still doctoring—no particular line, for whatever no one else wants to do here, I do as best I know how."

Shultz Moyer Early Stout

L. W. SHULTZ, North Manchester, Indiana

A. B. 1914. Professor of Religious Education at Manchester College

"Manchester College stands for a great spiritual ideal. It is the ideal of life and spirit which Jesus Christ revealed to men. With a keen sense of appreciation and gratitude I acknowledge the vital force that Manchester College has been in making my life and thought."

ELGIN MOYER, Chicago, Illinois

A. B. 1914. Seminary Teacher at Bethany Bible School; Spent more than a year in China in interests of General Mission Board; Post graduate work at Yale and Chicago University.

S. P. EARLY, Baltimore, Maryland

A. B. 1902. Pastor of Woodberry Church of the Brethren

"My heart thrills with pride to note the progress and growth which my Alma Mater has experienced in the past quarter of a century. The college has stood successfully all the tests so far, and my best wishes go with it for its continued prosperity."

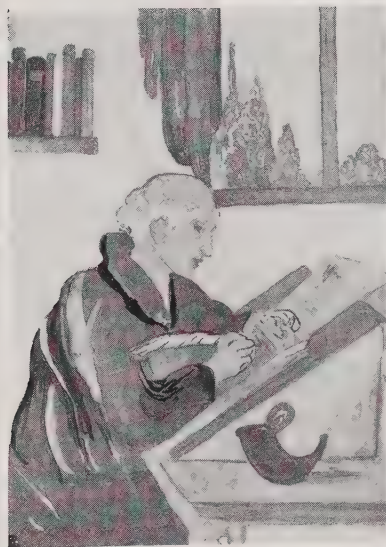

A. M. STOUT, Orbisonia, Pennsylvania

A. B. 1912. Pastor of Aughwick Church of the Brethren

"It was at Manchester College that I had the first impulse to become a minister. May the spirit of M. C. continue to inspire young men and women to the greatest calling of them all."

Traditions

May Day

One of the most delightful days of the year in the hearts and minds of M. C. students is the day when the Queen O' May reigns supreme on our campus. She is selected each year from the ranks of the Junior Class. One whole day is given over to merrymaking. The lovely and gracious Queen wends her way to the college woods where the Queen of the preceding year places the Royal Crown upon her head. Then, surrounded by her royal attendants, Maid of Honor, and the whole retinue of her train, begins her short but absolute reign. The afternoon is given over to athletic contests, and every one has a truly delightful time.

Visitors for this event are many, and familiar faces of years gone by are often seen again on our campus.

Homecoming Day

Homecoming Day is the newest tradition of our college and the one that will probably soon come to be the most cherished of all. Alumni and old students stroll again through the halls and over the campus, recall pleasant hours and incidents of their college days and strengthen the ties that bind them to their Alma Mater. Old friends and class mates renew friendships with some they have not seen for years.

The first homecoming day was October 31, 1925. Hundreds of Alumni and visitors will remember the foot-ball game with Muncie, the big dinner and the happy reunions of that day.

Homecoming Day is to be celebrated each fall. The day will be given over to a foot-ball games and other athletic contests.

Senior Ditch Day

"Ditch Day!—a day I shall never forget as long as I live!" is at least the thought, if not the exact words, of every Senior who has laid aside his proverbial dignity for a day, in order to follow with his class a tradition initiated by a class graduating from Manchester College many years ago.

It is the day when our Seniors, who have worked together for four years and who are soon to separate, ditch their studies, cares, husbands, wives, and sweethearts, and go to spend the day together in some quiet place. Here they learn to know each other much better, and strengthen friendships which, because of this day, may last a lifetime. Thus all receive a very rich and valuable experience on Ditch Day in addition to a well earned good time.

Slam Ball Contest

An event in which the differences between the Freshmen and Sophomores are settled is the Slam Ball Contest. It is an event every fall which tests the mettle and sportsmanship of each class.

Last fall the old athletic field was wet and muddy and rather a slippery time was experienced by the contestants. The slam ball itself is a large ball three feet in diameter filled with air and this is slammed back and forth by the players to make a goal. Different teams of Freshmen and Sophomore boys took part in the contest which ended with the score 8-0 in favor of the Freshmen.

Y. W. Retreat

The retreat of the Y. W. C. A. Cabinet, last September, was the first of its kind in the history of the local organization.

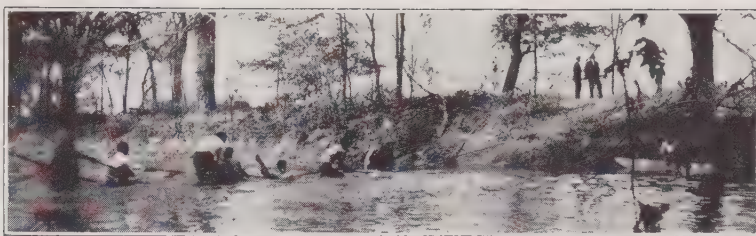

The cabinet, with its faculty adviser, Mrs. Wampler, spent an enjoyable day and a half at Tippecanoe Lake, discussing and planning the policy, which is an expression of the Association's aims and ideals, and the program for the coming year. This was one of the most profitable experiences of the Y. W. work.

Y. M. Retreat

The early fall retreat taken by the members of the cabinet and council of the Y. M. C. A. is one of the pleasant and important events of the organization's activities. These retreats are taken for the purpose of outlining the policies and duties of the organization for the year.

This year the retreat was at Camp Mack, where twenty-two Y. M. C. A. officers learned to know each other better, and became more fully acquainted with their duties as officers of the association.

Tug of War

The Freshmen of M. C. are not compelled to undergo the hazing of the Sophomores but have an equal chance to settle all difficulties in a "Tug of War" held each May Day. The place of the contest is across Eel River. The winners are the ones who are successful in pulling their opponents into the river. Last year's contest was won by the Sophomores. Every Freshman on the rope was dragged through the river to the tune of Sophomore yells.

Mothers and Daughters Banquet

Under the auspices of the Y. W. C. A., the Mothers and Daughters Banquet is held each spring. It is enjoyed by the college girls and their mothers, or mothers who are "adopted" because of the absence of their own. This year there was an unusually large number of girl students' mothers present, some coming from distant parts of Indiana, Ohio, and Illinois for the event. A Japanese program made it one of the most original of the numerous banquets on our campus.

Big Brother Banquet

The Big Brother Banquet has become an event anticipated months ahead by every boy in town and every man in college. It is an event of the early Springtime and the banquet with its new and potent associations is long remembered as one of the greatest experiences of college life at Manchester.

Every "Y" man takes a "Little Brother" and all go to the Banquet Hall for a jolly good time. Music and fun predominate with a touch of seriousness that is worthwhile.

College Burn

Every fall the institution holds a "College Burn". A truce is declared with "Study", and everyone repairs to the woods, where a great heap of wood and branches are piled up. This is lighted and a great fire is soon burning. There is always a picnic dinner and games. In the evening each class puts on a stunt and a varied program is given.

The entire affair is a truly democratic celebration, where everyone from Freshman to Professors mingles together in the freedom of kindly friendship and rivalry incited by contests and games.

The Annual "Y" Socials

At the beginning of each school year, the entire student body is invited to the first meeting of the Y. M. and Y. W. held in the College Park or in a nearby woods. Here the group is divided into small units for get-acquainted games and contests. As the group gathers around the camp fire, a program is given and songs are sung. The finishing touch of the evening may be a weiner roast, watermelon feed, or ice cream. This enjoyable event helps acclimate the new students to the friendly atmosphere of M. C.

IN BABYLON...

The "Street Crier" was in his element in historic Babylon three thousand years ago. Written matter was of no avail on the illiterate masses; wherefore traders "hawked" their wares unto a purchasing public.

What a contrast to our American civilization! Our widely scattered millions now read the ancient crier's evolutionized message at approximately the same moment. The advancement in our public educational system has made it possible to harness this tremendous force now known as Advertising.

We pride ourselves that our mental equipment enables us to patronize advertisers and by so doing we contribute to the economic greatness of America.

REMINISCENCE

*Memory brightens o'er the past,
As when the sun concealed
Behind some cloud that near us hangs,
Shines on a distant field.*

—LONGFELLOW

Perhaps it is well that human nature deplores the present and glorifies the past. In idle moments it is comforting to permit the mind to shine back on distant fields of pleasant experiences

Thus, this memory book will serve you and prove the source of real future pleasure. For Stafford combines these elements with the artistry, the quality and the workmanship which entitle it to bear the phrase ...

A FEW SAYINGS OF FAMOUS PEOPLE

"These flies are terrible! I'm going to take gastric measurements!"

"Look at Ruth and be consoled."

Looking at watch: "This time isn't far from wrong!"

To puzzled clerk: "I want to see some rubber batting."

On train, anxiously looking forward to arriving; and wondering how long a time remained: "How long do we get there?"

"Why we never came this way again!"

"Will this rubber matting ravel?"

"I want to say a few words before the gentleman speaks."

A FRUIT SALAD

Her father was a green grocer. She had long been the apple of my eye and I thought that we would make a lovely "pear." My friend told me that she was a peach, but my brother said she was a lemon. Not caring a fig, I raised a few berries and got a date. She would turn those cherry lips upward and whisper, "Now lettuce be nice!" I managed to argue, "Oats all right," but said she didn't carrot didn't happen in the best regulated families. It seems nuts to me but I felt myself squashed. However, I finally decided that she must have been a grapefruit, for everytime I squeezed her I got it in the eye. It was really a fruitless task.

* * *

Prof. Kintner: "Do any of you have any of the 'Trees of Indiana'? They must be brought in during the day-time, and during the night-time you can drag them out."

* * *

"I see the performers in that bicycle act at the Star have been arrested."

"Spring it."

"Pedaling without a license."

* * *

Dean Schwalm, discussing a certain quotation: "Why the Bible says—"

Mrs. Schwalm: "No, you mean—"

Dean: "Oh yes, the American Magazine."

QUALITY COUNTS

Even in Small Things

IN making any purchase, large or small, your most important consideration is, "Has this merchandise the lasting quality which will make me glad I bought it when I have tested it for lasting satisfaction?"

Our faith has always been in quality merchandise. Our experience has been that it attracts the most desirable class of patronage in the community. Don't you agree with us that a sound article at a fair price is better value than an inferior article at a lower price?

We want you to judge our merchandise not alone when it is bought, but when it has completed its service. We offer quality goods, priced fairly, and invite your patronage on this basis.

Where can a man buy a cap for his knee,
a key to a lock of his hair, a lid for his chest,
a shingle for the roof of his mouth, sticks
for the drums of his ears, feed for the calves
of his legs, jewels for the crown of his head,
a sharpener for the blades of his shoulders,
a cultivator for the corns on his toes, fer-
tilizer for the beat of his heart, and heaven
for the soul of his foot?

What College Graduates Value at Bethany:

The central location, in the midst of the thought currents of the entire church.

—A Blue Ridge Graduate.

The well-trained, God fearing teachers as a constant urge to careful training and deeper consecration.

—A Bridgewater Graduate.

A center for wide information on present day problems and needs.

—An Elizabethtown Graduate.

Its principles and methods, promoting thoroughness, originality and Spirit guidance in Bible study.

—A Juniata Graduate.

The association and fellowship with present and future leaders of our church.

—A LaVerne Graduate.

The opportunity afforded for engaging in practical Christian work in the city.

—A McPherson Graduate.

The open-mindedness of the faculty and student body in the first-hand treatment of modern thought.

—A Manchester Graduate.

The high standard of scholarship maintained in all Seminary courses.

—A Mount Morris Graduate.

A TRUE NARATIVE

We walked into Cupid's garden
And wandered o'er the land,
The moon shone out so brightly,
As I held her by the "shawl."

I held her by the shawl
"How soft the moonlight lies!"
Said this charming little maiden
As I gazed into her "lunch basket."

I gazed into her lunch basket,
Oh! how I wished to taste,
As I sat there with my charmer,
My arm around her "umbrella!"

Embracing the umbrella
Of this charming little miss,
I could resist no longer
So I slyly stole a "sandwich!"

L'ENVOI

*"When earth's last picture is painted, and the tubes are twisted dried,
When the oldest colors have faded, and the youngest critic has died,
We shall rest, and, faith, we shall need it—lie down for an eon or two,
Till the Master of All Good Workmen shall set us to work anew!
And only the Master shall praise us, and only the Master shall blame;
And no one shall work for money, and no one shall work for fame;
But each for the joy of working, and each, in his separate star
Shall draw the Thing as he sees It for the God of Things as They
Are!"*
